

2017 WORKSHOP HELD ON:

Saturday March 18-Sunday March 19

9am-4pm @ Reef HQ, Townsville

Be a Reef Ambassador

FOR THE GREAT BARRIER REEF (TOWNSVILLE)

SPEAKING UP FOR OCEANS

We are seeking outstanding individuals to educate their community about all things reef and ocean. As an Ambassador you will be empowered to educate and inspire your wider community to better understand, appreciate, and protect reefs. This program is designed specifically to focus on celebrating the tropical reefs and marine environments of Townsville and surrounds. **Be part of the movement.**

The two-day Ambassador workshop will prepare you to take the lead at community events in your local area. Day one of the workshop is all about science. It will introduce you to concepts of reef ecology, citizen science and reef management. You will have a chance to learn more about many organisations working in this underwater realm and the role YOU can play. Day two of the workshop will allow you to practice your skills in hands-on environmental education training and prepare you to safely take the lead at community events.

BENEFITS FOR YOU & OUR REEFS:

- Contribute to reef conservation and education
- Learn more about your local reefs
- Meet new people, attend cool events and see new places
- Receive tailored training and ongoing development opportunities

FREE WORKSHOP, but here is what we ask:

- \$20 fee for your tshirt
- Become an agent for change by pledging to Ambassador commitments

GET INVOLVED!

Visit www.reefcheckaustralia.org to submit your Expression of Interest

Townsville City Council is proud to provide funding for this project as part of the Community Grants Program.
